4. Mr. Foster Collins called to say that their liaison officer with the Department of State told them that Senator J. W. Fulbright (D., Ark.) was issuing a press release for the Sunday papers which was critical of the Department of State's policies and also took cracks at CIA. Mr. Fulbright's office knew nothing about this release. Mr. Carl Marcy, Chief of Staff, Senator Foreign Relations Committee, said this was a symposium of answers to questions which Mr. Fulbright had sent to ex-Foreign Service officers. He said that a list of officers had been given Mr. Fulbright by the Department of State, and the Senator had added other persons to write to. Mr. Marcy said we could pick up copies at 9 a.m. Saturday morning. Arrangements were made to do so.
